

Anti-Ragging Reporting & Support System

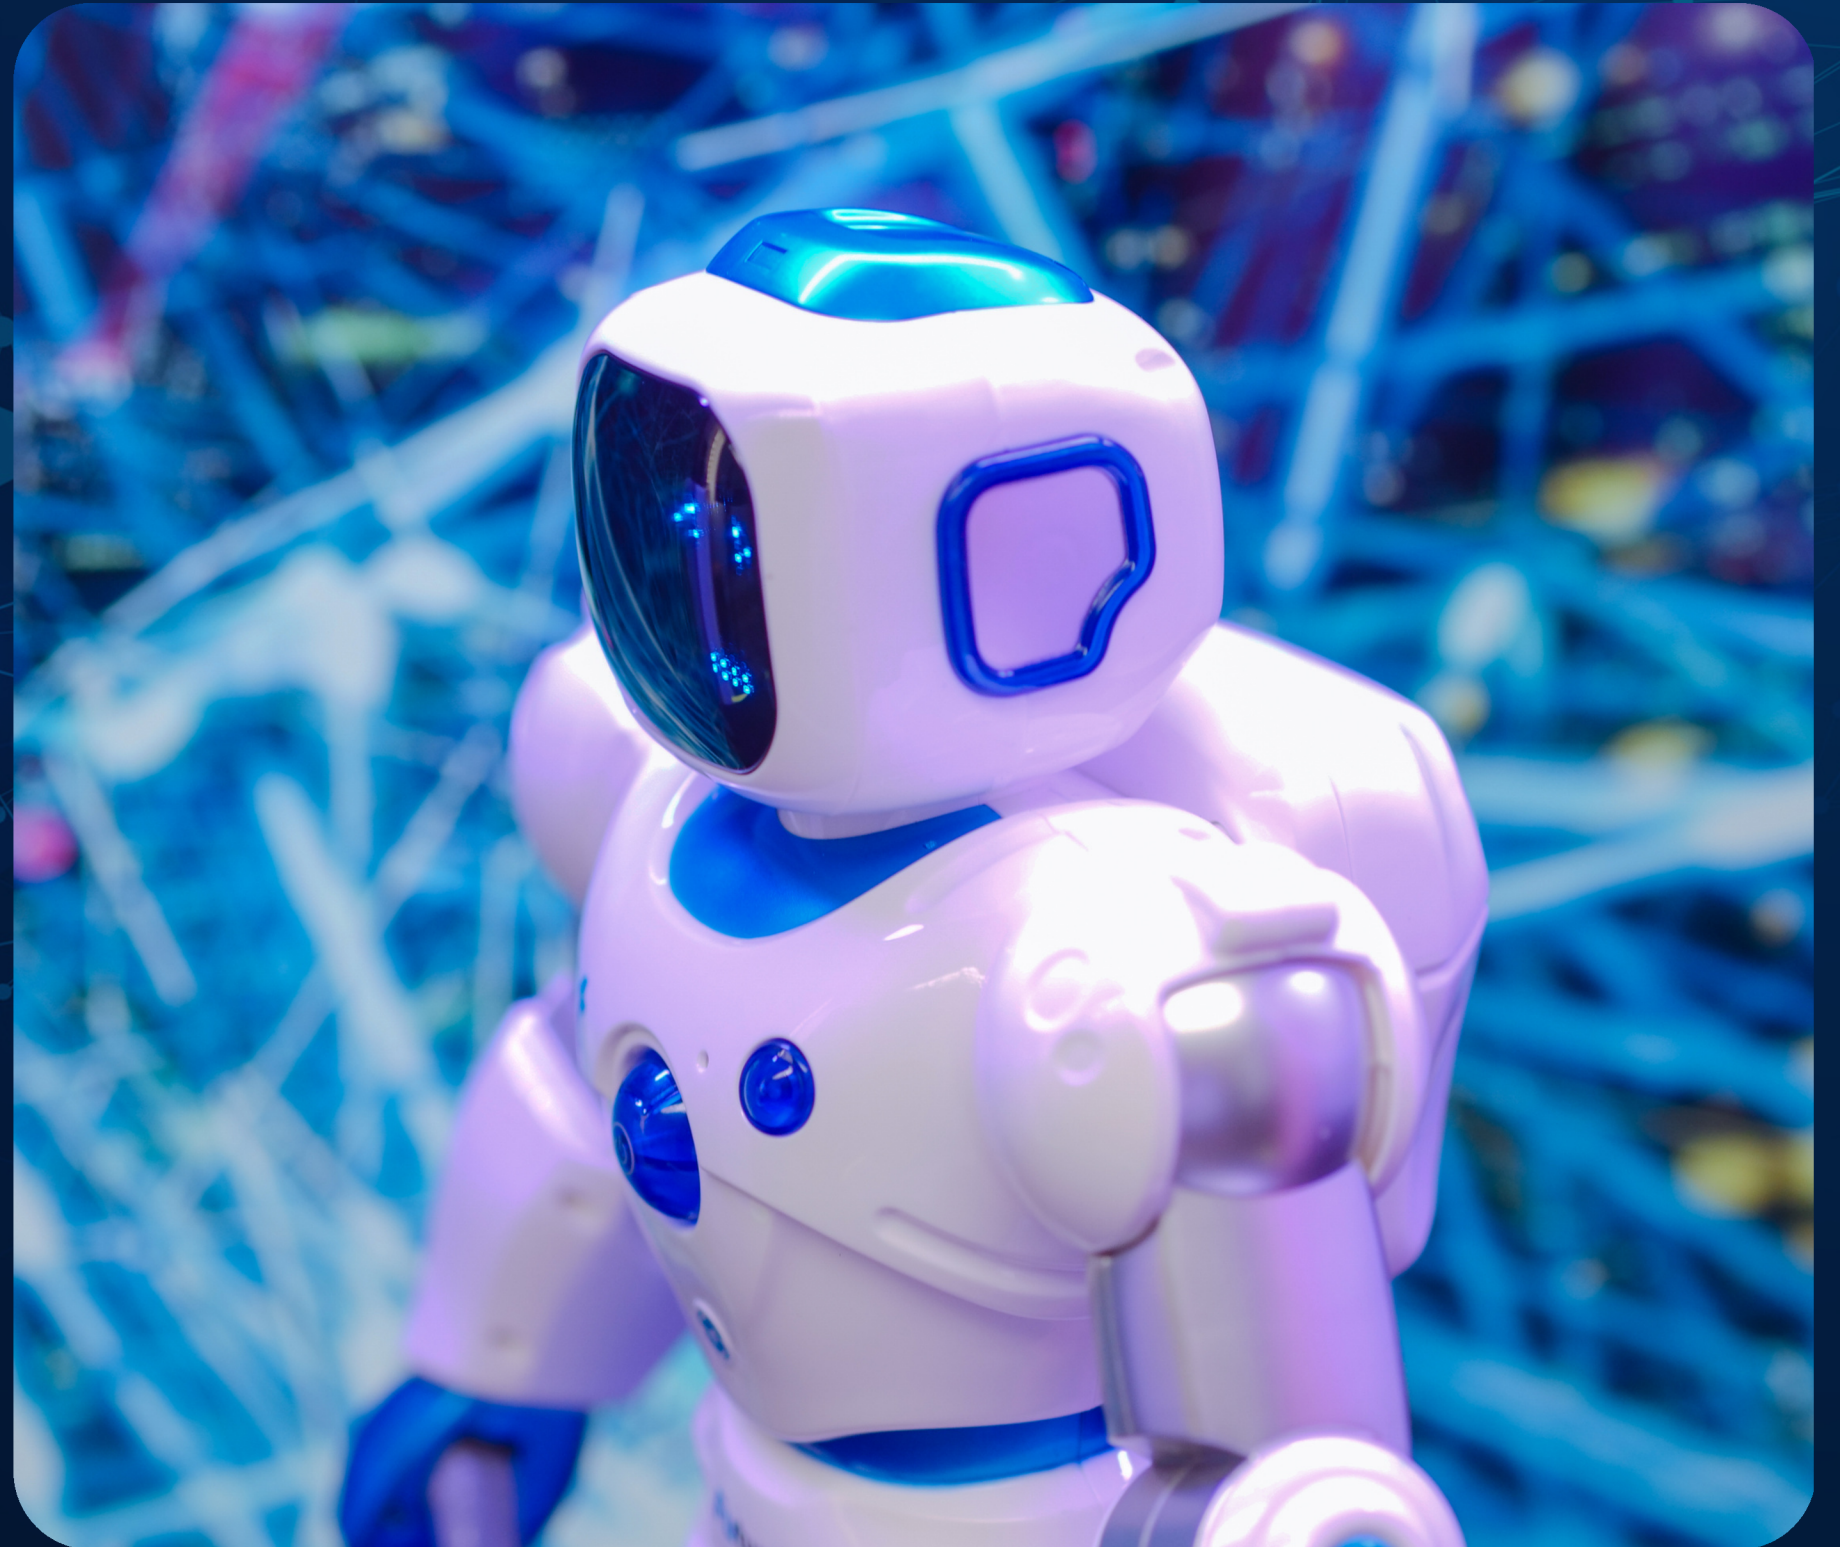

Anonymous Reporting | Direct Complaint | AI Chatbot

Presented By: Mohammed Misfar &
Stefina

Introduction

- Ragging is a serious issue affecting the safety and well-being of students.
- Many victims or witnesses hesitate to report due to fear of exposure or retaliation.
- Our system provides three reporting channels for different comfort levels.

Objective

1. Encourage safe & easy reporting of ragging incidents.
2. Protect victim/witness identity when needed.
3. Reduce false complaints through AI-based verification.
4. Provide quick escalation to college authorities for genuine cases.

Module 1: Anonymous Reporting

Purpose: Allow any witness to report without revealing their identity.

Features:

- No personal details required.
- Simple form submission.
- Generates a unique report ID for tracking.

Benefits:

- Increases willingness to report.
- Protects identity of whistleblowers.

Module 2: Direct Complaint

- 01 Purpose:
For victims ready to share their identity for official action.
- 02 Features:
 - Collects personal details (Name, Roll No, Contact).
 - Allows attachment of proof (photos, videos, documents).
 - Sends details directly to Anti-Ragging Committee.
- 03 Benefits:
 - Enables immediate legal & disciplinary action.
 - Strong evidence support.

Module 3: AI Chatbot Assistance

Purpose:

Help victims communicate comfortably to get out of that trauma

Benefits:

Gives victims emotional comfort.

Functions:

- Listens to victim's story in natural language.
- Give consultancy to victims

Security & Privacy

End-to-End Encryption of reports.

Secure database with role-based access.

No tracking of anonymous reporters.

AI chatbot conversations stored securely & confidentially.

Workflow

01

User chooses reporting method.

02

- Anonymous → Direct to database.
- Direct Complaint → Committee notified immediately.

03

Committee takes necessary action.

Expected Outcomes

- Increased number of genuine reports.
- Faster action against ragging cases.
- Improved student trust in anti-ragging measures.
- Safer and more welcoming campus environment.

Conclusion

- The three-tier reporting system ensures every student can report safely.
- Anonymous, Direct, and AI-Assisted options for consultation.
- Together, we can eliminate ragging and promote safety.
